

360° Reflective Target Prism

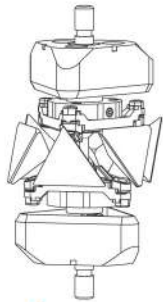

REV0360

REVO360

Three years have already passed since ZERO220 was released, which enjoyed a reputation for usability and quality. Finally, we release a much-anticipated 360 degree reflecting target prism "REVO360". REVO360 has an imposing body by shaving off the aluminium block and non-glued prisms for high maintainability.

Replaceable Prism

Each prism is independent. It means those prisms are non-glued. In case the prism is broken, it is replaceable at a minimum loss.

This structure saves money for users or renting business companies. (No need to buy new prism)

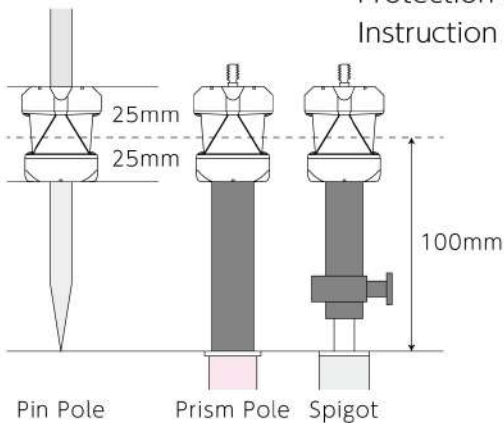

Compatible with 9mm Pin Pole

REVO360 has 6mm screw at the top and bottom. 6mm screw is used for 9mm diameter pole, which is widely distributed.

Specifications
